Ahmedabad, Gujarat, India

PROFESSIONAL SUMMARY

Results-oriented MERN Stack Developer with 6 months of hands-on internship experience developing scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in building RESTful APIs, implementing JWT authentication, integrating payment gateways, and developing responsive user interfaces. Strong understanding of modern JavaScript, database design, API integration, and software development best practices. Passionate about building efficient, user-centric applications and solving real-world business problems through technology.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful API

Database: MongoDB, Mongoose ODM

Languages: Gujarati, English, Hindi

Packages/Libs: Express, bcrypt, JSON Web Token (JWT), Axios, fs, path, Mongoose

Tools & Platforms: GitHub, VS Code, Figma, Vercel, Render, Postman

Concepts: MVC Architecture, RESTful API Design, Secure Backend Architecture, State Management, API Fetching, CLI Automation

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | [MERN Stack](#)

2026

Infolabz It Services | 6 months

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built and integrated RESTful APIs for seamless frontend-backend communication.
- Implemented JWT-based authentication and role-based authorization.
- Collaborated on debugging, testing, and performance optimization of web applications.
- Developed booking management features including search, filtering, booking history, and service workflows.
- Worked with Git and GitHub for version control and team collaboration.
- Participated in feature development, code reviews, and deployment activities.

PROJECTS

Full Stack Salon Services Web Application | [MERN Stack](#)

2026

MongoDB • Express.js • React.js • Node.js • JWT • Razorpay • REST API

- Developed a full-stack salon services platform using the MERN stack with scalable MVC architecture.
- Implemented JWT authentication, protected routes, and secure authorization workflows.
- Built RESTful APIs with CRUD operations for services, bookings, categories, and complaints.
- Integrated Razorpay Payment Gateway for secure online booking payments and transaction handling.
- Developed booking management features including search, filtering, booking history, and service workflows.
- Created a Complaint Management System with backend validation and API-based status tracking.
- Designed a responsive frontend using React.js, React Hooks, and Tailwind CSS.
- Secured application data using bcrypt password hashing and middleware-based JWT verification.

Recipe Finder — React API Application | [React.js](#) • [Axios](#) • [REST API](#)

2026

[React.js](#) • [Axios](#) • [DummyJSON Recipes API](#) • [Async JavaScript](#) • [Responsive UI](#)

- Developed a dynamic recipe application using React.js and Axios for REST API integration.
- Implemented React Hooks for state management, API handling, and error management.
- Designed a responsive UI with dynamic recipe listing and detailed recipe views.
- Applied async/await and error handling techniques for smooth API-driven user experience.

CLI-Based Real-World Utility Programs | [Node.js](#) • [JavaScript](#) • [API Integration](#)

2026

[Node.js](#) • [Axios](#) • [REST APIs](#) • [CLI](#) • [Data Processing](#) • [Automation](#)

- Developed CLI-based utility application Node.js, APIs, and asynchronous programming.
- Built a Currency Converter CLI with real-time exchange rate API integration.
- Created a Universities Finder CLI for fetching country-wise university data via REST APIs.
- Applied Node.js module system, asynchronous programming, and CLI argument parsing across all utilities to deliver automation-focused, developer-grade command-line applications.

EDUCATION

Diploma in Computer Engineering - Radhe Institute | (GTU)

Graduated:2023

Upleta, Gujarat, India

Bachelor of Engineering (B.E.) in Computer Engineering Ahmedabad Institute of Technology | (GTU)

Graduated:2026

Ahmedabad, Gujarat, India

CERTIFICATIONS & ACHIEVEMENTS

- MERN Stack Development Bootcamp — 2026
- React.js Fundamentals & Hooks Certification — 2025

ACHIEVEMENTS

- Successfully delivered 3+ end-to-end full-stack projects integrating authentication, payment gateways, and REST APIs independently.
- Active GitHub contributor with well-documented repositories demonstrating clean code practices, modular structure, and regular commit history.
- Successfully hosted applications on Render and Vercel with production-ready configurations.

TOOLS & TECHNOLOGIES

Version Control: Git, GitHub

IDE: Visual Studio Code

Design: Figma, Canva

Productivity: Microsoft Office Suite
